CSA Australia Summit 2023

Sponsorship Opportunities

Cloud Security Alliance Summit Australia Overview

The Cloud Security Alliance (CSA) will host the very first CSA Australia Summit on 10th February 2023. This inaugural CSA Australia event will be an informative one-day summit expected to draw information security professionals and innovators in cloud security who will share case studies, lessons learned, and new technologies that promote the secure implementation of cloud computing. A world-class program of speakers and panellists will provide perspectives on cloud computing strategy, cloud security standards, and real-world implementation experience with state-of-the-art cloud security architectures.
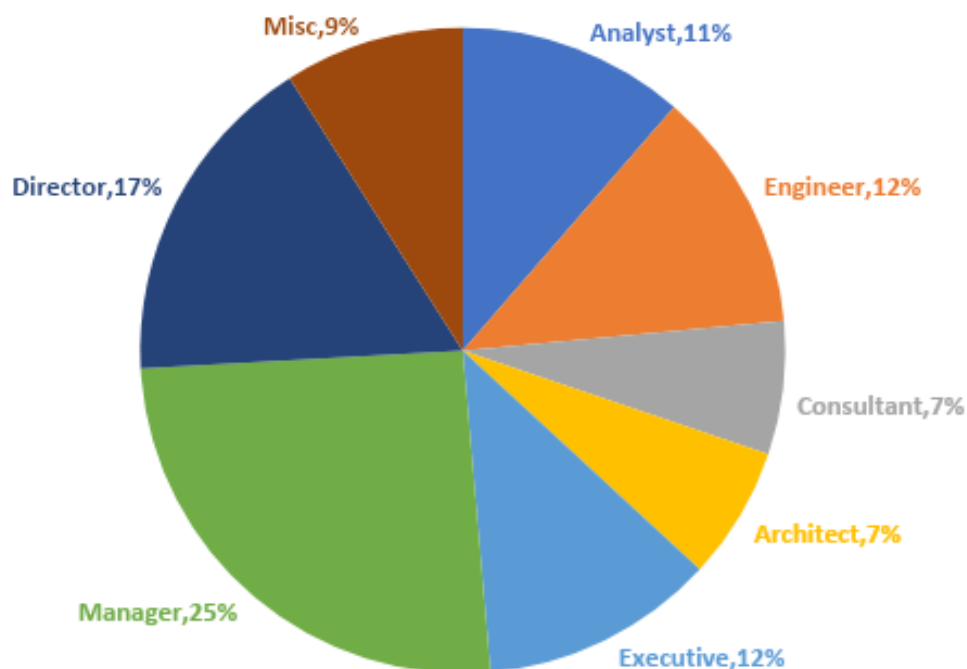

Sponsorship of the CSA Australia Summit event is a great opportunity to demonstrate your organisation's thought leadership in providing relevant security solutions for the next generation of IT and/or OT cloud computing. We attract key decision-makers influencing the adoption of the cloud.

Corporate members of CSA Global in good standing will have access to 25% discount on rates.
