

Cloud Security Alliance Australia Summit 2023

10th February 2023 | The University of Queensland | Brisbane, Australia

Join us for the [Cloud Security Alliance's Australia Summit](#), taking place in-person on Friday 10th February 2023, at the University of Queensland's St. Lucia campus in Brisbane, Queensland, Australia. Focused on "Enhancing Cloud Computing Security in Australia", the 2023 Summit will explore the infrastructure, methodologies, tools, standards, and support for individuals, industry and government to build cyber resilience across IT and OT portfolios, from home office to national critical infrastructure.

The CSA Australia Summit is for anyone involved in cloud computing, individuals who want to protect their data in the cloud, financial institutions who need to meet APRA's CPS 234 with their cloud systems, organisations needing PCI DSS compliance in the cloud, industries who want to use cloud with IEC 62443 or ISO/IEC 27001, and cyber security practitioners from all environments. The Summit will feature information security professionals from industry and government, as well as innovators in cloud security who will share case studies, lessons learned and new technologies that promote secure implementation of cloud computing.

Featured Session:

Cloud Computing Standards: Past, Present & Future

Dr. Anish Karmarkar (Oracle)

Chair, ISO/IEC JTC 1/SC 38 Cloud Computing and Distributed Platforms
and

John Messina (NIST)

ISO/IEC JTC 1/SC 38/AG 1 Stakeholder Engagement

Join the Chair of the committee that writes ISO/IEC cloud computing standards, along with one of the authors of the original *NIST Cloud Computing Reference Architecture*, for the latest in cloud computing standards, including multi-cloud, federated cloud, cloud security controls, sovereignty, organizational autonomy, trustworthiness, interoperability and edge computing.

Register Now

CSAA Members AU\$50 (inc. GST)

Membership + Registration AU\$100 (inc. GST)
